Buckland's Complete Book Of Witchcraft

Synopsis

Buckland's Complete Book of Witchcraft has influenced and guided countless students, coven initiates, and solitaires around the world. One of modern Wicca's most recommended books, this comprehensive text features a step-by-step course in Witchcraft, with information on rituals, beliefs, history, and lore, as well as instruction in spellwork, divination, herbalism, healing, channeling, dreamwork, sabbats, esbats, covens, and solitary practice. Exam questions are included as part of each lesson, so you can build a permanent record of your spiritual and magical training. This complete self-study course in modern Wicca is a treasured classic - an essential and trusted guide that belongs in every Witch's library.

#42 in Books > Religion & Spirituality > New Age & Spirituality > Wicca, Witchcraft & Paganism > Witchcraft
#70 in Books > Religion & Spirituality > Religious Studies > Comparative Religion

Customer Reviews

Despite what opinions people may have towards the author of this book, I consider this book to be a staple when learning about the art of witchcraft. This book does highlight many Wiccan concepts, specifically referencing Seax-Wica which was founded by the author. Although not everyone is Wiccan, this book does offer a lot of insight into Witchcraft such as sigil work, ritual formation, herbalism, divination, healing, and other forms of magick. The book is split into fifteen interactive lessons which delve into different subjects. Each lesson has a self-reflection and mini quiz to test your prior knowledge and to see what you've learned from your readings. In certain lessons, the author gives outlines of rituals and meditations that can be done as a solitary or as a coven. One aspect that I really enjoyed while reading this book is that it is very easy to comprehend. The author also takes time, such as with his section over sigils, to give multiple interpretations so that the

reader may choose which way works best for them. Another aspect that I was delighted to see was the consideration the author took in stating that their views were only one way of looking at the bigger picture. I strongly believe this way of thinking encourages beginners along their path as it puts them at ease with their own beliefs and way of creating magick. I particularly enjoyed the mini reference guides incorporated into this book with herbs, crystals, and runes. When one can't afford to buy multiple books for certain subjects, this book can be used as a handy guide in those subject areas. Even though the book is titled Buckland's Complete Book of Witchcraft, the author states that this book does not cover everything in regards to Wicca and Witchcraft. It does, however, cover a lot of material that one may come to find when exploring the Craft. It is always best to read as many books as you can and to continue your studies for as long as you can in order to become more adept.

A compilation of very useful information for covens and solitary witches alike. I bought it on kindle, but will order the book itself.

this was a christmas gift. it arrived quickly, well packaged and was just as described. recipients liked it.

While I would argue the title naming it the "complete" book of the craft, it does come pretty close. Easy to read and plenty of illustrations to show what the author is speaking of but be aware that this book is more aimed at those who practice witchcraft in a coven/group setting. The majority of the rituals within are aimed at a group and impossible to do as a solitary witch unless you rewrite them first. In addition, because the book centers around the author's personal experience in Gardnerian Wicca, other viewpoints and denominations are not described in as much detail. A solid read good for any witch's bookshelf, otherwise.

Very interesting read.

What a wealth of information. Most beneficially to anyone who is interested in learning. I am best pleased that I added this to my collection.

Finally got my copy of "Big Blue"!

Great book!!
