Customer Reviews

Our bilingual home is very happy with all the DK readers we have bought. I no longer bother with the reviews or information about the books and just buy them on the title alone because of the consistency of quality.

Its okay, but not what I expected. More for an older child than a younger one.

We love dk readers, my granddaughter loves to read these and learn. Great way to start critical thinking

Ok - a bit boring and doesn't explain different types of homes in US, and some remote homes is not relatable for an early reader.

this is a great picture book for ages 3-11. the photos demonstrate diversity in life style and the means of living

Very age-appropriate for new readers! It provided many interesting facts and photos that intrigued my 6 year old curious grandson! Perfect for our Biomimicry camp!

My Montessori classroom has this book as part of our library. Great pictures and info for young readers and non readers.

This book will be a good addition to my school library for homes around the world which is required in TX.
