The Elephant In The Room: A Journey Into The Trump Campaign And The "Alt-Right"

Synopsis

'But Hillary is a known Luciferian,' he tried. 'She's not a known Luciferian,' I said. 'Well, yes and no,' he said. In *The Elephant in the Room*, Jon Ronson, the New York Times best-selling author of *The Psychopath Test*, *Them* and *So You've Been Publicly Shamed*, travels to Cleveland at the height of summer to witness the Republican National Convention. Along the way he reunites with an old acquaintance - the influential provocateur and conspiracy talk-show host Alex Jones - who draws him, unexpectedly, into one of the most bizarre presidential campaigns in American history. From the private Winnebago where conspiracy theorists and fearmongers discuss key campaign decisions to a chance encounter with notorious political operative Roger Stone, Ronson's picaresque journey into Donald Trump's atmosphere introduces us to the people who orbit the campaign machine and discovers what makes them tick - and what ticks them off. Whimsical, hilarious and often downright terrifying, *The Elephant in the Room* captures a defining moment in our time as only Jon Ronson could see it.

Customer Reviews

Excellent, but short! I would love if Ronson wrote an entire book about the alt-right, as they seem to become more relevant (or at least, loud) these days. It's quite terrifying to read a book that is so spot on - I couldn't believe it was published before the results of the election. Scary.

Another great story from Jon Ronson, worth every penny.

Good though short bit about Trump; however, it was released pre-election, so the assertion in the book is that the author believes it's not too likely Trump will be elected, barring some things happening.

Marvelously terrifying

I love Ronson and this is a quick read. Insightful as ever.

It was more of a long essay than a book so that surprised me. Anything Jon Ronson writes is very readable and insightful, though.

Jon Ronson is such a good observer and just about anything he writes is well worth the read. I recommend this short book and look forward to more from this author.

Knowing what we know now, this isn't quite the gleeful expose it was planned to be. Which is a shame, for everyone.
